DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 1 – 5 and 13 – 20, drawn to a method for a user to find pinpoint status of a shipment being transported by a carrier and a system for a user to obtain via internet or other network, a pinpoint status of a shipment being transported by a carrier.
 - b. Group II, claim(s) 6 – 12, drawn to a method for providing a user the status of a shipment being transported by a carrier.
2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The Method of Group I recites distinct steps than the method of Group II. Specifically, Group I discloses “clicking on a shipment pinpoint symbol on a computer screen; connecting automatically to the internet or private network, if a connection is not

already established; sending automatically a shipping pinpoint inquiry to the carrier via the internet or private network; requesting a pinpoint location of the shipment in response to the shipping status inquiry; and receiving the requested pinpoint location of the shipment to the computer screen, wherein the pinpoint location identifies a position between checkpoints at each of which shipment presence is monitored regardless of user inquiries.”

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
